About the Department:

Institute of Engineering & Technology Lucknow, a government organization established in the year 1984, is the oldest and reputed Engineering College in the capital Lucknow and Department of Chemical Engineering was established in year 1996 with intake of 30 students but present intake is 60 students Institute of Engineering & Technology Lucknow has been awarded Academic autonomy from the year 2012. Department of Chemical Engineering was also awarded NBA-Accredited certificate during 2006-2009.

About the Workshop:

The workshop "Advances in Chemical Engineering and Technology" aims at exploring recent developments and trends in chemical engineering and technology. It will also provide an excellent opportunity for young faculty, research scholars and students to interact with eminent researchers working in the frontier areas of chemical engineering and process technology.

The present Workshop will have 8 session which deals with following areas:

*Future directions in chemical engineering**Frontiers in chemical reaction engineering**Separation science and technology**Modeling, optimization and control of chemical processes**Novel process technologies**Chemical engineering in emerging technologies***How to Reach:**

The city of Lucknow is well connected by road, rail and air with all the important places of India. The Institute of Engineering & Technology (IET Lucknow) campus is only 14 Km from Lucknow railway station, 35 Km from the airport.

Speakers:

Speakers are from the premier institutions like IIT's, NIT's and Reputed Technical Universities, will be teaching the course contents.
